1. Qualitative Information on Quarterly Financial Statements

(1) Explanation of Business Results

During the three months ended June 30, 2016, the Japanese economy remained on a moderate recovery course underpinned by improvements in the employment and income environment, despite some signs of weakness. Overseas economies were robust in developed economies, such as the U.S. and Europe, while China and emerging countries experienced a slowdown in economic growth.

The NGK Group saw sluggish performance in the Power Business Segment due to a lack of large shipments of NAS® (sodium-sulfur) batteries. In the Ceramics Business Segment, demand increased for automotive ceramics due to factors including strong sales of passenger cars in the U.S. and European market and increase of small passenger car sales owing to tax reduction measures in China. The Electronics Business Segment showed sluggish performance as the recovery of demand for ceramic packages delayed, while there was a delay in the recovery of demand for ceramic packages.

As a result of the above, combined with the impact of the strong yen, consolidated net sales for the three months ended June 30, 2016 decreased by 5.3% year on year to ¥98,975 million. In terms of earnings, as a result of decreased net sales among other factors, operating income decreased by 3.9% year on year to ¥19,151 million, ordinary income decreased by 7.1% to ¥18,500 million and profit attributable to owners of the parent decreased by 8.7% to ¥12,646 million.

By segment, the Power Business Segment posted ¥13,367 million in net sales, a decrease of 25.2% year on year, and an operating loss of ¥1,428 million, compared to an operating income of ¥87 million in the same period of the previous year. In the Ceramics Business Segment, net sales increased by 1.9% year on year to ¥60,255 million and operating income increased by 14.9% year on year to ¥19,300 million. In the Electronics Business Segment, net sales decreased by 8.1% year on year to ¥25,367 million and operating income decreased by 58.1% year on year to ¥1,279 million.

(2) Explanation of Financial Position

As of June 30, 2016, total assets were ¥669,594 million, a decrease of ¥42,303 million from the previous fiscal year-end. This was mainly due to a decrease in the balance of securities and decreases in accounts receivable, tangible assets, etc., reflecting a decrease in the yen conversion amount of the assets of overseas subsidiaries accompanying the impact of the strong yen.

Total liabilities decreased by ¥12,638 million from the previous fiscal year-end to ¥281,285 million.

Total net assets stood at ¥388,308 million, or ¥29,664 million lower than the previous fiscal year-end, due to the repurchase of treasury stock and a decrease in foreign currency translation adjustments.

If there is any necessity to revise the full year forecasts, updated information will be disclosed immediately.

Financial results forecasts are based on information that are currently available and actual results may differ materially from those in the forecasts due to various factors.

(Adoption of "Implementation Guidance on Recoverability of Deferred Tax Assets")

Effective from the first quarter of fiscal 2016, the Company adopted the "Implementation Guidance on Recoverability of Deferred Tax Assets" (ASBJ Guidance No. 26, March 28, 2016).

(Receipt of the written verdict from the National Tax Tribunal regarding transfer pricing taxation)

On June 24, 2016, the Company received a written verdict from the Nagoya National Tax Tribunal in response to the following a request for re-examination of a correction submitted by the Company.

With respect to the transactions between the Company and its two overseas subsidiaries from the fiscal year ended March 31, 2006 through the fiscal year ended March 31, 2010, the Company received a correction based on transfer pricing taxation issued by the Nagoya Regional Taxation Bureau in March 2012, and the Company made payment of approximately ¥7.9 billion in tax penalties including local taxes, while filing a complaint. With respect to approximately ¥1.7 billion of the aforementioned tax penalties concerning the transactions with a U.S. subsidiary, the Company received approximately ¥1.4 billion refund in total in Japan and the U.S.upon agreement under a Japan-U.S. Mutual Agreement, which has been reflected in the financial results for the year ended March 31, 2014. On the other hand, with respect to the remaining approximately ¥6.2 billion tax penalty concering the transactions with a Polish subsidiary, the Company requested the cancellation of it and had submitted a request for re-examination of a correction to the Nagoya National Tax Tribunal in August 2014. This dicision partially rescinds these corrections, and it is expected that approximately ¥ 0.1 billion will be refunded to the Company as corporation taxes, local taxes, etc.

Considering the content of the written verdict, the Company still believes its claim is flawless and reasonable, and is considering of taking measures to reclaim the rest of the tax penalty paid. In the meantime, there is a risk of receiving certain correction from the tax authorities for the fiscal years subsequent to April 1, 2010.

(Consolidated Balance Sheet)

Contingent liabilities

The NGK Group is subject to an international investigation on the situation of competition.

Since the receiving of a subpoena by a U.S. subsidiary of NGK Insulators, LTD. (NGK) from the U.S. Department of Justice (DOJ) in 2011, NGK has cooperated in the investigation concerning ceramic substrates for catalytic converters including establishing the Independent Committee in 2012. In September, 2015, NGK entered into a Plea Agreement with DOJ, agreeing to pay a fine of US\$65.3 million based on charges that it violated U.S. laws including the antitrust law in connection with some transactions for ceramic substrates for catalytic converters, and paid the total amount in November 2015. We have entered into negotiations for compensation for damages with the relevant customers. In addition to some customers requiring monetary compensation, civil lawsuits (class action) have also been filed.

In consideration of such progresses, the NGK Group made an estimate of potential losses, and recognized the estimated amount as of the end of the fiscal year ended March 31, 2016, as "provision for loss related to competition law," however, additional losses may arise with the emergence of new facts. Overall details of the investigation and negotiations are not disclosed because they may put the NGK Group at a disadvantage.
