1. Qualitative Information on Quarterly Financial Statements

(1) Explanation of Business Results

During the three months ended June 30, 2017, the Japanese economy remained on a moderate recovery course, underpinned by improvements in the employment and income environment. Among overseas economies, developed economies, such as the U.S. and Europe, were robust, while emerging countries experienced a slowdown in economic growth.

The NGK Group saw sluggish performance in NAS® (sodium-sulfur) batteries in the Power Business Segment, while overseas shipments of insulators increased. In the Ceramics Business Segment, the volume of automotive ceramics increased due to steady progress of passenger car sales in Europe and truck sales in China, despite a slowdown in passenger car sales in the Chinese and U.S. markets. In the Electronics Business Segment, the quantity of ceramic components for semiconductor manufacturing equipment increased as semiconductors became increasingly shrinking.

As a result of the above, consolidated net sales for the three months ended June 30, 2017 increased by 11.2% year on year to ¥110,044 million. In terms of earnings, despite an increase in net sales, as a result of increased R&D and depreciation costs, among other factors, operating income decreased by 1.8% year on year to ¥18,807 million, ordinary income decreased by 2.0% to ¥18,126 million and profit attributable to owners of the parent decreased by 10.8% to ¥11,279 million.

By segment, the Power Business Segment posted ¥14,586 million in net sales, an increase of 9.1% year on year, and an operating loss of ¥619 million, compared to an operating loss of ¥1,428 million in the same period of the previous year. In the Ceramics Business Segment, net sales increased by 7.8% year on year to ¥64,971 million and operating income decreased by 20.6% year on year to ¥15,332 million. In the Electronics Business Segment, net sales increased by 20.3% year on year to ¥30,509 million and operating income increased by 219.8% year on year to ¥4,091 million.

(2) Explanation of Financial Position

As of June 30, 2017, total assets were ¥768,113 million, an increase of ¥8,679 million from the previous fiscal year-end. This was mainly due to increases in tangible assets and cash and bank deposits despite a decrease of securities.

Total liabilities decreased by ¥6,041 million from the previous fiscal year-end to ¥325,799 million. This was mainly due to a decrease in income taxes payable despite an increase of long-term borrowings.

Total net assets stood at ¥442,314 million, or ¥14,721 million higher than the previous fiscal year-end, due to increases in foreign currency translation adjustments and retained earnings.

(3) Explanation of Forward-looking Statements including Forecasts for Consolidated Financial Statements

With regard to the financial results forecasts for the full year ending March 31, 2018, no revisions have been made to those announced on April 28, 2017 and the previous forecasts remain unchanged. If there is any necessity to revise the full year forecasts, updated information will be disclosed immediately.

Financial results forecasts are based on information that are currently available and actual results may differ materially from those in the forecasts due to various factors.

(Additional Information)

With respect to transactions between NGK and its Polish subsidiary from the fiscal year ended March 31, 2007 through the fiscal year ended March 31, 2010, NGK received a correction based on transfer pricing taxation issued by the Nagoya Regional Taxation Bureau in March 2012. While NGK made a payment of approximately ¥6.2 billion in tax penalties including local taxes, it filed a complaint. NGK later requested the Nagoya National Tax Tribunal to carry out an administrative review, and on June 24, 2016, received a written verdict, which partially rescinded the correction. However, it went only so far as to refund approximately ¥0.1 billion of corporation taxes and local taxes, etc. Believing that cancellation should be made in the full amount, NGK filed an action for revocation of the correction with the Tokyo District Court on December 20, 2016.

While NGK believes that it could still take a considerable amount of time before judgment is passed on the claim, on June 23, 2017 NGK received a correction notice based on transfer pricing taxation for the fiscal year ended March 31, 2011 through the fiscal year ended March 31, 2015. Accordingly, based on the premise that NGK would be subject to the said correction for the fiscal year ended March 31, 2016 and the fiscal year ended March 31, 2017 as well, ¥8.5 billion in tax penalties for fiscal years from March 31, 2011 through March 31, 2015, and estimated tax amounts for the fiscal year ended March 31, 2016 and the fiscal year ended March 31, 2017 were added and factored into the financial statements for the fiscal year ended March 31, 2017. In addition, estimated tax amounts for the three months ended June 30, 2017 were recognized under "Income taxes current" for the fiscal year ending March 31, 2018.

(Consolidated Balance Sheet)

%1. Income taxes payable

With respect to transactions between NGK and its Polish subsidiary, NGK received a correction notice based on transfer pricing taxation on June 23, 2017. Therefore, the amount includes estimated tax amounts based on the premise that NGK would be subject to the said correction for the period from the fiscal year ended March 31, 2016, to June 30, 2017.

2. Contingent liabilities

The NGK Group is subject to an international investigation on the situation of competition.

Since the receiving of a subpoena by a U.S. subsidiary of NGK from the U.S. Department of Justice (DOJ) in 2011, NGK has cooperated in the investigation concerning ceramic substrates for catalytic converters including establishing the Independent Committee in 2012. In September, 2015, NGK entered into a Plea Agreement with DOJ, agreeing to pay a fine of US\$65.3 million based on charges that it violated U.S. laws including the antitrust law in connection with some transactions for ceramic substrates for catalytic converters, and paid the total amount in November 2015. We have entered into negotiations for compensation for damages with the relevant customers. In addition to some customers requiring monetary compensation, civil lawsuits (class action) have also been filed.

In consideration of such progresses, the NGK Group made an estimate of potential losses, and recognized the estimated amount as of the end of three months ended June 30, 2017, as "provision for loss related to competition law," however, additional losses may arise with the emergence of new facts. Overall details of the investigation and negotiations are not disclosed because they may put the NGK Group at a disadvantage.

(Consolidated Statement of Income)

%1. Income taxes - current

With respect to transactions between NGK and its Polish subsidiary, NGK received a correction notice based on transfer pricing taxation on June 23, 2017. Therefore, the amount includes estimated tax amounts for the three months ended June 30, 2017 based on the premise that NGK would be subject to the said correction.

(Segment Information)

(1) Three months ended June 30, 2017 (from April 1, 2017 to June 30, 2017)

(Millions of yen)

	Business Segment			Elimination		
	Power	Ceramics	Electronics	Total	or Adjustment	Consolidated
Sales						
Sales to customers	14,579	64,956	30,509	110,044	-	110,044
Intersegment sales	7	15	-	23	(23)	-
Total sales	14,586	64,971	30,509	110,067	(23)	110,044
Operating income (loss)	(619)	15,332	4,091	18,804	2	18,807

(2) Three months ended June 30, 2016 (from April 1, 2016 to June 30, 2016)

(Millions of yen)

	Business Segment			Elimination	Consolidated	
	Power	Ceramics	Electronics	Total	or Adjustment	Consolidated
Sales						
Sales to customers	13,365	60,241	25,367	98,975	-	98,975
Intersegment sales	2	13	-	15	(15)	-
Total sales	13,367	60,255	25,367	98,991	(15)	98,975
Operating income (loss)	(1,428)	19,300	1,279	19,151	-	19,151

(Notes) 1. Elimination or adjustment of operating income (loss) is an adjustment of intersegment transactions.

2. Main products by business segment

Business Segment	Main products		
Power	Insulators, hardware for insulator assemblies, current limiting arching horns, bushing shells, fuse cut-outs, APM, line arrester and NAS® (sodium-sulfur) batteries		
Ceramics	Automotive ceramics for exhaust gas purification, corrosion-resistant ceramic apparatuses for chemical industries, gas analyzers, industrial heating systems, refractory products and radioactive waste treatment systems		
Electronics	Ceramic components for semiconductor manufacturing equipment, ceramic components for electronics, beryllium copper products, and molds
